EDUCATION

Cavite State University: Bacoar Campus

Bachelor of Science in Information Technology
Cumulative GPA: 1.37; **Cum Laude**

Bacoar, Cavite
September 2025

EXPERIENCE

Front-End Web Developer Intern

Inventive Media | 2025

- Designed and built an Attendance System using **React** and **Laravel**, supervised by **Henry Ong II**, to streamline internal employee/interns tracking.
- Assisted in delivering training sessions at Inventive Media and participated in on-site in-house training for corporate clients.
- Built a **responsive** Exam App designed to support training sessions, improving participant engagement and assessment

Freelance Web Developer

Self-employed | 2023-2025

- Developed and deployed custom websites for students and small business clients based on specific requirements.
- Implemented responsive design, SEO best practices, and user-friendly interfaces using React, Tailwind CSS, and WordPress.

PROJECTS

react-toast-drei – React Toast Notification Library

React, Tailwind CSS, Framer Motion

- Developed and published a customizable toast notification library on npm with **830+ downloads**.
- Designed a clean, responsive UI using Tailwind CSS and added smooth animations with Framer Motion.
- Created comprehensive documentation to ensure easy integration and usage for developers.

Inventive Media Attendance System

React, Tailwind CSS, Laravel, Mysql

- Developed a responsive front-end interface using React and Tailwind CSS to track daily attendance of employees and interns.
- Implemented intuitive user dashboards and real-time attendance views for administrators and staff.
- Collaborated closely with back-end developers to integrate **RESTful APIs** and ensure smooth data flow.
